

Next AccessCareer Transnational Meeting & Training Programme Launch

As part of its ongoing work, the AccessCareer partnership has developed a **structured training programme** consisting in **eight curriculum units**, covering key topics such as:

- Bias Awareness
- Personalized Guidance
- Labor Market Trends
- Career Self-Management
- Digital Tools for Counselling
- Ethics & Professional Conduct
- Stress Management & Burnout Prevention
- LifeComp Skills Agency

Funded by the European Union. The opinions and views expressed are the sole responsibility of the author(s) and do not necessarily reflect those of the European Union or the Spanish Service for the Internationalization of Education (SEPIE). Neither the European Union nor the awarding authority can be held responsible for them.

These themes were identified through focus groups with professionals and are complemented by **presentations, a practical handbook, case studies, and interactive exercises**. All will be **translated into multiple languages** to enhance accessibility and engagement and will soon be published on the project website.

Moreover, the **AccessCareer** consortium is pleased to announce that its next **Transnational Project Meeting** will take place in **Greece in March 2026** and will be hosted by the Greek partner Headway in Athens. This meeting will bring together partners from all across Europe to review the project's progress, exchange best practices, and plan the next steps toward enhancing the skills of career counsellors and guidance professionals.

The **next step** of the project focuses on piloting the training with **career counsellors**, enabling them to apply the newly developed tools in real-world settings and strengthen inclusive, ethical, and future-oriented career guidance across Europe. **Their feedback will be systematically collected and used to refine and adapt the curriculum**, ensuring it remains practical, relevant, and responsive to the real needs of professionals in the field.

All project materials and updates will be published on the AccessCareer website: www.accesscareer.eu
